**Event description:**
Join us in a celebration of the remarkable! CBS’ Entrepreneurship platform is happy to host a talk with Dr. Charles Spinosa on the remarkable, cultural innovations and entrepreneurship, followed by a remarkable bar with opportunities to delight in the joy of an evening set off by inspiring ideas and available drinks.

We are welcoming one of the authors of the fascinating book – Disclosing New Worlds: Entrepreneurship, Democratic Action, and the Cultivation of Solidarity (MIT Press) – Dr. Charles Spinosa to EGOS. Dr. Spinosa will address the topic of Cultural Innovations and Entrepreneurship. Dr. Spinosa is what we would describe as a visionary, innovative thinker. Today, he is a consultant that has worked with several global companies on strategy, leadership, entrepreneurship and innovation. His academic background includes teaching English at Miami University (Ohio), and philosophy at the University of California, Berkeley, from where he also earned his PhD. The philosophically based, new approach to innovation that he presented (with co-authors Hubert Dreyfus and Fernando Flores) in the ‘Disclosing New Worlds’-book was described by Peter Aspen of the Financial Times as: "A brave attempt to reformulate the relationship between democratic rights and economic progress in an age when the triumphalism of technological advance masks an unconfident vision of the future."

Dr. Spinosa has continued to work with the relationship between the social, the cultural, and the economic, also in his work on innovation with companies. At this event we will be able to listen to him addressing the topic of ‘the remarkable, cultural innovation and entrepreneurship’. We believe this will provide an exciting, timely, and relevant perspective on how we understand business in society and the role and function of entrepreneurship therein as creators of new and good organisations. CBS is a Business University, distinct in its diversity, and wants to “play a major role in the discussion of innovative and entrepreneurial business models, sustainable organisational forms and economic practices within the perspective of responsible management and leadership.” (CBS’ Strategy) ‘Good’ is here associated with entrepreneurial, sustainable, and responsible. When and how is the good also remarkable?

Find out, with drinks and light food facilitating an extension of your network into the worlds of CBS, CBS’ Entrepreneurship Platform and EGOSians.
